

SAPHYRE  
Data

```
graph TD; A[SAPHYRE Data] --> B[Evaluates performance of novice and expert pilots using combination of heart rate and navigational/operation data]; B --> C((Flight route 1-5)); B --> D((Flight path 1-33)); B --> E((Experience Novice Expert));
```

The diagram is a flowchart. At the top is a purple rounded rectangle labeled 'SAPHYRE Data'. A downward arrow points from this rectangle to a wide, light green horizontal rectangle. This green rectangle contains the text 'Evaluates performance of novice and expert pilots using combination of heart rate and navigational/operation data'. From the bottom of the green rectangle, three arrows branch out to three light blue circles. The left circle is labeled 'Flight route (1-5)', the middle circle is labeled 'Flight path (1-33)', and the right circle is labeled 'Experience (Novice Expert)'.

Evaluates performance of novice and expert pilots using combination of heart rate and navigational/operation data

Flight  
route  
(1-5)

Flight  
path  
(1-33)

Experience  
(Novice  
Expert)
